

# English Language Requirements and Recommendations

## Is submitting an English certificate (IELTS) required for admission?

**No**, neither the Ministry of Higher Education nor the Institute requires an IELTS certificate as an official prerequisite for application or admission to the department.

## Recommended (Assumed) Score

The student is expected to possess a linguistic proficiency level equivalent to at least **4.5 - 5.0** in the IELTS test (High Beginner / Intermediate level).

## Why this specific score?

Because medical diagnosis, diagnostic equipment operations, pathology, microbiology, hematology, and laboratory test reports are taught in English. A student with this level will have the ability to:

- ✦ Easily comprehend medical laboratory lectures and study academic materials.
- ✦ Understand diagnostic terminology, test names, and bacterial/pathological classifications faster.
- ✦ Accurately read diagnostic test results and communicate medical concepts during practical lab sessions.

 **Note for New Students**

If your current level is below this average, do not worry! Focus will be placed on developing medical laboratory terminology gradually during the first year. 

 **Medical Laboratory Technology Department – Medical Technical Institute / Mosul**
