

English Language Requirements and Recommendations

Is submitting an English certificate (IELTS) required for admission?

No, neither the Ministry of Higher Education nor the Institute requires an IELTS certificate as an official prerequisite for application or admission to the department.

Recommended (Assumed) Score

The student is expected to possess a linguistic proficiency level equivalent to at least **4.5 - 5.0** in the IELTS test (High Beginner / Intermediate level).

Why this specific score?

Because clinical nursing procedures, patient care concepts, pharmacology basics, vital signs monitoring, and medical record documentation are taught in English. A student with this level will have the ability to:

- ✦ Easily comprehend nursing lectures and study academic materials.
- ✦ Understand medical terminology, clinical care procedures, and drug dosages faster.
- ✦ Accurately follow medical orders and communicate scientific terms during practical clinical training in hospitals.

 Note for New Students

If your current level is below this average, do not worry! Focus will be placed on developing medical and nursing terminology gradually during the first year.
